

General Guidelines For Use

Please follow local healthcare policy for personal protective equipment, hand hygiene & waste disposal guidelines.

1 Remove any visible soiling with the first wipe, then use additional wipes as required following an "S" shaped motion. Use a fresh wipe to clean each new surface.

2 Allow surface to air dry after use.

3 Dispose of wipe after single use. DO NOT FLUSH. For maceratable products, check packaging.

Always refer to manufacturer's instructions prior to use.
